I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I oppose the Draft M.O.U. from personal experience. I tried the "One Fits all" Hormone replacement for many years with many unpleasant side effects. The last one in CO. after moving here 4 yrs ago. The MD we chose insisted I try Prempro again. I had heavy bleeding for 5 months and became extremely anemic. After find a nurse practitioner in Indiana that was able to get an MD to order Natural Hormones from Women's Health and have enjoyed excellent health since.

Why is the FDA so insistant to remove the change of good Health from the public?
